

aquatec

Who we are

At Aquatec, we have
over 30 years local
and international
experience in
developing and
building innovative
water and wastewater
solutions made to
perfection. **Everytime.**

BEGINNINGS

Our foundations began in 1993 in a small tin shed in Shepparton, Victoria. With a small team of two, we began working with plumbers and the industrial market to show them a better way to reduce risk by utilising our packaged pumping solutions. As our position in the market and our direction became more focused, our capabilities grew and with it, our people.

In 2012, we moved into a purpose-built 2000m² headquarters on 1.5 hectares of land, further expanding into fully staffed facilities in Sydney, Melbourne, Brisbane and Adelaide, and aligning with key partners throughout Australasia to cater for our overseas markets.

Today, Aquatec partners with government, business and residential clients to deliver water and wastewater solutions for the long-term. We have become trusted advisors in the industry, with decades of combined experience in providing turnkey solutions for challenging pumping and treatment systems.

In the municipal industry that we service, one must always be ahead of the technology curve and therefore, we have a big focus on innovation and technology improvements. We are dedicated to our valued clients, to understanding their needs and providing fit-for-purpose solutions.

Expectations are at the highest level. We always strive for 100% perfection in everything we do. Our processes are continually improving through feedback provided from our valued staff and clients alike.

With our foundations built on solid relationships and with substantial and continued investment in Our People and our business, we will continue to grow through innovation, collaboration and excellence.

Bruce Seeley
CEO & Founder

Our Vision

THIS IS OUR WHY. THIS UNDERPINS EVERY DECISION WE MAKE.
THIS MOTIVATES AND DRIVES US TO BE BETTER.
THIS IS AQUATEC.

Our Vision is to establish Aquatec as the global leader of innovative water and wastewater solutions by ensuring 100% perfection in every project we deliver.

Together, we solve tomorrow's water challenges today, creating a better future for all.

Our Mission

THIS IS THE WORKING OUT OF OUR VISION.
THIS IS WHERE OUR FOCUS LIES AND THE DAILY
ACTIONS ASSOCIATED WITH IT.

Our Mission is to be positioned as the trusted advisors and innovation leaders to our Australasian clients in the water, wastewater and pumping industries.

Our Values

Innovation

Collaboration

Excellence

INNOVATION

Together
we pioneer.

We believe that innovation is the key to long term sustainable growth. Together we continually pioneer better solutions within every facet of business. It's a mindset we share.

COLLABORATION

Together
we share.

We believe that sharing is a winning strategy. With singularity of purpose, we proactively contribute ideas, knowledge and skills to create a better future for all.

EXCELLENCE

Together we
are flawless.

We believe that excellence is a minimum standard. Together we are flawless in everything we do.

Our People Professional Creative Intelligent

THESE ARE OUR CHARACTER TRAITS.
THEY SHOW HOW OUR VALUES ARE WORKED OUT DAILY.

PROFESSIONAL

Together,
we are
world-class

Everything we do to a high standard,
exceeding expectation every time.

CREATIVE

Together,
we creatively
think

Continuously thinking of a better way.

INTELLIGENT

Together,
we consciously
act

Thoughtful and conscious in everything
we do and say whilst remaining curious.

Care

We define care as something that we do.

AT AQUATEC, CARE UNDERPINS EVERY DECISION AND ACTION THAT WE MAKE AS A WHOLE AND AS AN INDIVIDUAL.

CHARITABLE

Giving back to the community

We care about the needs in the local and international community. We are proud supporters of WaterAid and other charitable organisations.

CONSCIOUS

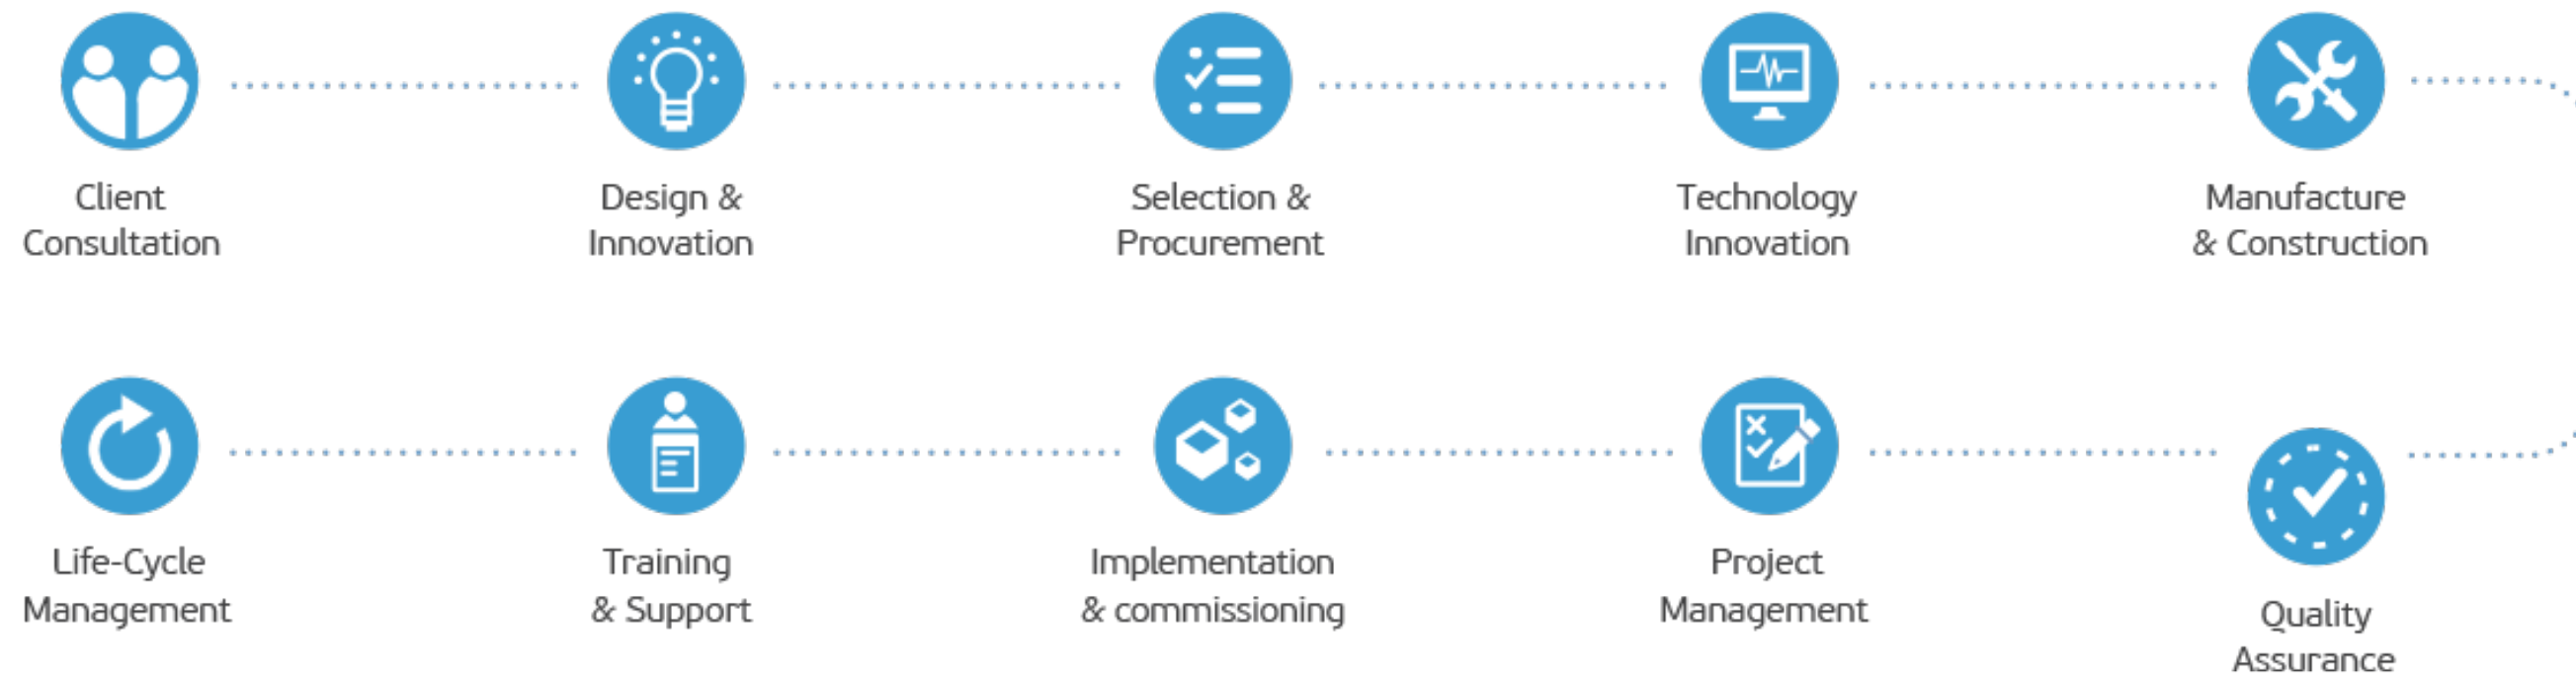

Environmental sustainability

We care about the future of our planet. Our environmental strategy is to have a minimal impact outcome to the environment, respecting flora and fauna and minimising wastage both in the workplace and on construction sites.

Our end-to-end process

Aquatec's end-to-end service model provides a superior level of risk management and quality control.

Our Products

Our products are purpose-built for environmental risk management and customised to respond to the unique demands of any application. We design for all pumping system applications and a niche range of treatment requirements.

CONCRETE PUMP STATIONS

FIBREGLASS PUMP STATIONS

STORAGE VESSELS

PRESSURE SEWER SYSTEMS

SOLIDS HANDLING SYSTEMS

Design & Construct

Through Collaboration, Innovation and Excellence, we work closely with you on developments to provide a perfect solution with a guaranteed outcome.

DESIGN

Partnering with Aquatec, you gain access to our in-house team of design engineers who will work closely and in conjunction with you, to carefully analyse all aspects of the project and provide you with a complete set of documentation and calculations for construction. We ensure all specifications are met as our design team works closely with all parties and authorities.

CIVIL INSTALLATION

Our dedicated Lead Field Technician will visit site to ensure the civil components are installed with precision. We will work closely with your site contact to ensure the complete structure is installed with care and to exact specification.

PRE-ASSEMBLY

Aquatec pre-assemble all relevant mechanical components at our facility under controlled environments to ensure a smooth and uneventful build on-site. This allows for a simple installation with quality assurance.

MECHANICAL FITOUT

Our Mechanical Fitters, under the direction of our assigned Lead Field Technician, will install valves, pipework, pumps, etc. as required.

ELECTRICAL FITOUT

Aquatec's Electrical Team will connect the pump cables and level controls, place the electrical switchboard on the slab, and supervise all testing and approvals of documentation with the relevant Power Authority.

COMMISSIONING

At the final commission you will experience a complete re-run of the pre-tests with all stakeholders and relevant Water Authorities involved.

HSEQ

A culture of continual improvement

AN UNCOMPROMISING COMMITMENT

Striving for better every day

Health, Safety, Environment and Quality is of utmost importance; it takes pride of place in the Aquatec culture, forming an integral part of our continuous improvement program.

A SAFER WAY TO WORK

Mindful working habits

Our commitment to the ISO certification, along with our third party JAS/ANZ accreditation, has led us to establish safe and environmentally aware work practices, which reduce risk and proactively identify and avoid vulnerabilities.
